P R E S I D E N T ' S C O L U M N

Wow! Where did January go? I thought things would slow down after the holidays. This has turned out to be a major "kick off" month

for sports car folks. We had our year's first meetings for: planning the 2005 Lexington Concours d'Elegance, the BGR board, and the BGR General Membership. In addition, we had a fantastic happening for the local Porsche community!

At the two day concours planning meeting, we made several overarching decisions. The marque for 2005 will be Mercedes-Benz. Several unique Mercedes were identified for us to "acquire" for display. Concours categories will be expanded by one to include Classic Hot Rods. Probably the neatest of all is that after holding only one concours, we're getting some of the premier auto owners already asking to be included in our field of 100. So mark August 27 on your calendar. It will be a super event! So far nine of our BGR members are directly involved in conducting this outstanding event and BGR is being recognized as a major contributor to the Lexington sports car community.

Our first BGR Board meeting was held on January 23. We installed the new 2005 Board members and increased the Board size by two positions. The intent of this increase was to support the Board decision to expand the scope of BGR activities to include Driving Events. The new positions are Driving Events Chair and Safety Chair. We were able to talk Larry Woods into accepting the DE position. We are still looking for a person to fill the Safety Chair. If you would be interested in filling this position, contact me soon. Look! The pay isn't too good but the benefits are great!

We were also pleased to see a treasury balance of \$2,871.41. Now we need to conduct our annual financial review and would appreciate the advice of an excellent CPA. Again, the pay isn't too good but the benefits are great!! Let me know

if we can make you interested. We need the help.

One other need was brought up at the Board meeting. We are losing our Webmaster support. Let me know if you would be interested in taking on this challenging role. You would have unlimited creative opportunities and a pleasant work environment. What a sell job!

OK, three excellent opportunities for increased club involvement is probably enough for now. I'm not going to talk about all of the neat 2005 potential activities we discussed at the meeting because I'm sure Ed Stevenson will capture them later in this issue or at the General Membership meeting on January 30.

Now for the FANTASTIC news. Yes Virginia there will be a Porsche dealership in Lexington. It will be located in the Hamburg vicinity. Their address is 1868 Plaudit Place. It's immediately behind and across the street from the Starbucks store. The dealership's two primary owners are Jamal Mashburn and Brian Cunningham. (And, contrary to rumor, Rick Pitino is not involved with the dealership.) You may have heard of Jamal and Brian. Both are involved in high performance sports and competition so a Porsche dealership is a neat business extension for them. Brian's family has been associated with Porsche and racing for years. In 1951 at Palm Beach, his grandfather gave Porsche its first win in American competition. Brian is currently active as a driver in ALMS and Grand AM. The dealership is on a fast track and will be taking orders for sales as soon as mid-February. The dealership building will be open and running by mid-April. If you have specific questions regarding operations you can send an e-mail to lexingtonporsche@aol.com. Also, the dealership is currently putting together its people organization. If you know of skilled technicians who would fit in an excellent Porsche organization, send information to the above e-mail address.

Membership by Gary Hackney, Membership Chair

Our membership is at 92.

While I can't yet access the new database online, the national office has been good about sending out monthly hardcopy membership lists. No word on when we'll be completely back to normal.

-Gary Hackney

Presidents Column cont. by Ken Hold

What's exciting for BGR is that the dealership would like to establish a close relationship with our club. I met with Brian and Dan Musick, the dealership General Sales Manager, to discuss areas of interest for both the dealership and our club. One area of real interest by both parties is holding quality track events. With Brian's driving experience, this could be great for BGR. I'm expecting to see several opportunities this year for some types of joint activities. There will be more time at the General Membership meeting to discuss ideas for those activities.

Bottom line, this will be a great year for BGR. There are more and more opportunities unfolding for membership involvement and enjoyment. (Don't forget about the three involvement opportunities I've already mentioned.) If you don't want to hold an office, choose an activity you'd like to participate in and join the fun!

Remember, it's all about the cars,

Ken

Shift Block

for Porsche 924, 924s,
944, 944 Turbo, 944s, S2
and 968

Stop sloppy shifting.
Stop missing shifting to next gear.
Stop long throws of gearshift between gears.

With Stuttgart Motorsports new patented linkage block you will get more positive crisper shifts every time.

Stuttgart Motorsports shifting block has been race tested and approved by the Screaming "O" Racing Team and other racing teams for the last two seasons in Porsche club racing.

Unlike some shorter shifter kits that shorten the shift so much it's hard to get in and out of gears, Stuttgart's shift block restores a shorter shift and the crisper feel of a new car shifter.

At less than half the price of other short shifter kits, Stuttgart's shifting block can easily be installed by your local shop.

KIT INCLUDES: detailed instructions, shifting block, spring clip, and lock nut. LINKAGE NOT INCLUDED.

Installation should be done by qualified service center or a knowledgeable enthusiast.
Will not work on 924's with 016-Y or Z, 5 speed transmissions.

To order call 859.255.7278 or email stuttgartmotors@alltell.net

TECH Quiz, By Mary Anne Nowakowski, Chicago Region PCA

1) At the initial introduction of the Type 993 series in January 1994, with the exception of a more aerodynamic front and rear bodywork, over 90% of the car was actually a carryover from the Type 964 series.

True or False

2) Both the 964 based turbo 3.3 and 3.6 have a running gear similar to the Carrera 2, but the higher power, greater weight and wider track require different parts, such as the rear suspension arms.

True or False

3) Bolder wheel flares and rear wheels moved rearward identified the 1969 911 models.

True or False

4) The original 15" wheel diameter that was used in the first Porsche models was retained all the way through the 1989 model year as a stock size

True or False

5) The 964 series Carrera 2, launched as a 1990 model, was the first 911 available with a fully automatic transmission.

True or False

6) When driven in rough terrain, the Cayenne does not use the Porsche Traction System integrated as a standard feature in the power divider.

True or False

7) The traction management system on the Cayenne has a multiple-plate clutch operated by an electric motor that varies power distribution according to conditions.

True or False

8) Each 6-cylinder engine for the Boxster is completely assembled by a single, small team, and dyno-tested to check that it achieves the specified performance data.

True or False

9) The 3.2 liter engine of the 911 Carrera has a more free flowing exhaust and new heat exchangers.

True or False

10) The wheelbase for the 1982 924, 1982 924 Turbo and the 1983 944 is the same.

True or False
